STATE CLEARINGHOUSE

---

# NEWSLETTER

**October 16 through 31, 2001**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **October 16 through 31, 2001.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html#clearinghouse](http://www.opr.ca.gov/clearinghouse.html#clearinghouse)

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte Joung and Karen Fowler (for projects in Northern California)  
Scott Morgan and Brian Grattidge (for projects in Southern California)

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

**Curtail garage lighting. Cut down to partial lighting where possible, but do not compromise safety and security.**

# CEQA & Planning Case Law

## **Summary of Recent CEQA & Planning Case Law**

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

**No cases have been selected for the period of October 16-31, 2001.**

*Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.*

# Federal Notices

## Intergovernmental Review Notices (October 16<sup>th</sup> - 31<sup>st</sup>, 2001)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

**Description:** On October 29, 2001, the San Francisco District of the U.S. Army Corps of Engineers released a public notice for a procedural change for not including preliminary environmental assessments in regulatory public notices. Other than eliminating the formal preliminary EA, they will continue to include all other information that historically has been in the public notices. In accordance with the National Environmental Policy Act, they will continue to prepare EAs to assess project impacts, but for those projects requiring public notices, they will prepare the Eas only after the close of the public notice comment period when sufficient information has been gathered to address the relevant public interest factors.

# CEQA Documents

## Key for abbreviations of Document Type :

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

## CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, October 16, 2001</u></b>			
2001102081	Tract 8438 Hidden Oaks Subdivision Lafayette, City of Lafayette--Contra Costa A major subdivision of 14.3 acres into 23 single family lots.	<b>EIR</b>	12/03/2001
1996013004	Cache Creek Resources Management Plan and Cache Creek Improvement Program Yolo County Woodland--Yolo Cache Creek is integrally bound to the environmental and social resources of the County. These resources include drainage, flood protection, water supply, conveyance, wildlife habitat, recreation, aggregate mining, and agricultural production. Adoption of the Cache Creek Resources Management Plan (CCRMP) balances a diverse range of concerns and emphasizes the management of the creek to enhance the variety of resource needs for the region. The CCRMP is a comprehensive creek management plan that eliminates in-channel commercial mining, establishes an improvement program for implementing on-going projects to improve channel stability, and ensures future habitat restoration along the creek bank.	<b>NOP</b>	11/14/2001
2001102084	Jameson Canyon Project Caltrans #4 --Napa, Solano Caltrans, the California Transportation Commission and the Federal Highway Administration propose to convert an existing two-lane conventional highway into a four-lane divided expressway from the intersection with State Route 29 south of the City of Napa to a point 0.3 kilometer west of Interstate 80 in the City of Fairfield. The area is known as Jameson Canyon. The existing highway, State Route 12, is a major east-west link in the interregional road system of the northern Bay Area. The section of highway under consideration is 9.5 kilometers long.	<b>NOP</b>	11/14/2001
2001101089	New County Government Center, ED00-228 (C000018G) San Luis Obispo County San Luis Obispo--San Luis Obispo Demolish two existing County-owned buildings and a fuel station and construct a new 97,000 square foot, 4-story county government facility with two levels of below ground parking.	<b>Neg</b>	11/14/2001
2001101090	West Arcade San Diego, City of San Diego--San Diego West Arcade City Council approval of an Amendment to the Balboa Park-Central Mesa Precise Plan No. 41-0536 for the construction of an arched passageway within the National Historic Landmark District and Historical Resources Board Site No. 1 in Balboa Park. The West Arcade would be located between the Museum of Man and the Plaza de Panama, just south of the Sculpture Garden within the area of the Central Mesa of Balboa Park known as the Prado.	<b>Neg</b>	11/14/2001

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, October 16, 2001</u></b>			
2001101091	Conditional Use Permit #01-0042/Variance #01-0014 Imperial County Planning Department Calexico--Imperial 105 foot tall unmanned, self-supporting communication tower, along with ground based support equipment all located within a 100' x 100' fenced area.	<b>Neg</b>	11/14/2001
2001101092	Proposed Site Plan SP-8-01 Victorville, City of Victorville--San Bernardino To allow for the development of a distribution warehouse.	<b>Neg</b>	11/14/2001
2001102083	Keith and Lora Truax (Siskiyou County Road Dept.) Use Permit and Reclamation Plan (UP-01-52/RP-01-02) Siskiyou County Planning Department Dorris--Siskiyou The Siskiyou County Road Department requests Use Permit and Reclamation Plan approval for a 17-acre open-pit gravel quarry within a 1,163-acre ranch. 225,000 cubic yards of material are planned for harvest over a 15-year mine life. Annual production is estimated at 10,000 to 15,000 cubic yards. The quarry would provide a rock source for road materials for the County's Road Maintenance District 6 in northeastern Siskiyou County. Presently, there are no other County rock sources in this District.	<b>Neg</b>	11/16/2001
2001102086	Mowry Avenue Corridor Phase III Sewer Replacement Union Sanitary District Union City, Fremont--Alameda Replace existing sewer system with a new graving collector sewer. The project will also realign portions of the sewer main from private property to public rights-of-way.	<b>Neg</b>	11/16/2001
1980071615	TM 5093TE, P96 , Log No. 96-08-007 San Diego County, Department of Planning and Land Use --San Diego This Specific Plan Amendment proposes deleting the seven Country Estate lots in the northwest portion and relocating two of the lots to the project area. The Equestrian Center designation will be changed to Community Recreation (CR) to be developed as a passive park or community/recreation facility. The CR area will be reduced from 24 acres to 18 acres. The Olivenhain Water District ROW which the District acquired in fee title, is included in the overall CR designation but is identified as "Not a Part" on the Tentative Map Resulting in 10.61 net acres for Lot 3 (park site). The Olivenhain Water District ROW is a part of the Specific Plan. Lot 1 of the Tentative Map will be 2.027 gross acres and require approximately 12,000 cubic yards of cut material and 13,000 cubic yards of fill material for pad grading. Lot 2 will be 1.363 gross acres and require approximately 20,000 cubic yards of fill material for pad grading. Lot 3 will be 10.811 gross acres in size. The project requires approval of a Specific Plan Amendment and a Tentative Map.	<b>NOD</b>

**Documents Received on Wednesday, October 17, 2001**

1997041029	<p>Tavernetti Subdivision Monterey County Combined Development Permit consisting of a General Plan Amendment to amend the Central Salinas Valley area plan from "Rural Grazing, 40 acre minimum and low density residential, 1 acre per unit to medium density residential low density residential" and "Public/Quasi-Public" or similar classification; reclassification from "RG/40", "PG/40 and "RG/20" (Rural Grazing) and "LDR/1 UR" (Low Density Residential, Urban Reserve) to "MDR/5", "LDR/1" AND "O" (Open Space) or similar classification; standard subdivision to subdivide a 411 acre parcel into 319 lots ranging in size from 2,100 square feet to 25.63 acres. The property is located northerly off Pine Canyon Road, in the King City area, Central Salinas Valley area Plan.</p>	EIR	12/03/2001
2000062030	<p>Revised Basin Management Plan Pajaro Valley Water Management Agency Watsonville--Monterey, Santa Cruz The Pajaro Valley Water Management Agency (PVWMA) has prepared the draft Revised Basin Management Plan (Revised BMP) to address water resources management issues in the Pajaro Valley. The Revised BMP provides a review and update of previous water supply studies to outline the extent of the Pajaro Valley's groundwater over-pumping and seawater intrusion problems. The Revised BMP identifies available options and evaluates alternative strategies to meet the agency's objectives, two of which are evaluated in detail in the EIR: the BMP 2000 Alternative and the Local-Only Alternative. These alternatives involve development of long-term water supplies. Projects include water conservation, water recycling, potential import of Central Valley project (CVP) water and construction of an import pipeline connecting the Pajaro Valley to the San Felipe division of the CVP, and/or development of local water supplies potentially including diversions from streams and sloughs.</p>	EIR	11/30/2001
2001051065	<p>Consolidated Redevelopment Project Plan Buena Park, City of Buena Park--Orange The proposed Consolidated Redevelopment Project entails the merger of three existing redevelopment project areas and the inclusion of new areas in the City of Buena Park. The project also extends the deadline to incur debt and the timeline to use eminent domain powers in non-residential areas of the existing redevelopment project areas. In addition, the project proposes to modify the financial limits for the resulting merged and amended redevelopment project. The three existing redevelopment projects are 1) the Central Business District Project and its amendments, 2) the Project Area II and its amendments and 3) the Project Area III and its one amendment. The project also includes 2,930 acres of new area for a total Consolidated Redevelopment Project Area of 3,940 acres. The proposed actions are all being taken in accordance with the standards of the California Community Redevelopment Law (CRL), Health and Safety Code Section 33000, et seq.</p>	EIR	11/30/2001

	the year usually characterized by low flow. WQSA obligates the United States to allocate a total of \$12 million to acquire Truckee River water rights. Whenever possible, water associated with such rights will be stored and accumulated in Truckee River reservoirs managed by BOR. Stored water is anticipated to be released primarily during periods of low flow (normally July, August, and September). The resulting flow augmentation is expected to increase the nutrient assimilative capacity of the Truckee River and dilute non-point source pollutants. Federal funds for the program have been fully appropriated by Congress and are managed by Bureau of Indian Affairs (BIA). BIA has contracted the acquisition program with the Tribe, and the Tribe has, in turn, subcontracted with a water rights acquisition contractor to acquire water and water rights. Water and water rights acquired by the Tribe as part of WQSA is expected to be held in trust by the United States for the Tribe.		
1998101027	2002 Monterey Bay Metropolitan Transportation Plan Update Association of Monterey Bay Area Governments The proposed action is an update to the Metropolitan Transportation Plan (MTP) covering the counties of Monterey, San Benito and Santa Cruz. The MTP is a planning document which establishes the general goals, policies and strategies governing the conduct of a continuing, cooperative and comprehensive transportation program in effect for the three counties. The purpose of the plan is to coordinate and facilitate the programming and budgeting of all transportation facilities and services within the three-county Monterey Bay region in accordance with Federal regulations.	<b>NOP</b>	11/16/2001

	entire amount of emissions, include units emitting two pounds per day or more of emissions in calculating potential to emit of a stationary source, add an emergency equipment exemption for potable water pumping and sewage pumping sources, and allow for the transfer of unused emission credits between calendar quarters.		
2001101095	Development Review DR01-05/Application for Environmental Initial Assessment AEIS 01-08 Santee, City of Santee--San Diego Construction of a one-story 2,064 square-foot single-family residence on a vacant 4.07-acre site, with access via Canyon Park Terrace.	<b>Neg</b>	11/16/2001
2001101096	Calabasas Landfill Gas Well Rehabilitation Project Los Angeles County Sanitation District Calabasas--Los Angeles The proposed project would rehabilitate four poorly performing existing gas wells that have been adversely affected by the plugging of the slotted portion of the well casing, reducing their effectiveness in collecting landfill gas. The impacted wells require redrilling and reconstruction in order to continue to provide for the effective control of landfill gas migration. An additional 50 wells may be added in the future using the same technique, depending on the performance of the initial four wells.	<b>Neg</b>	11/16/2001
2001101097	Riverside County Housing Element Update Riverside County --Riverside The Housing Element is a comprehensive statement by the County of Riverside of its broad and specific commitments to facilitate the development of housing in the unincorporated areas of the County. The Housing Element is one of the seven General Plan elements mandated by the State of California, as articulated in Sections 65580 to 65589.8 of the Government Code. State law requires that the Housing Element consist of "an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objects, and scheduled programs for the preservation, improvement and development of housing". The residential character of the County is, to a large extent, determined by the variety of its housing and the locations and maintenance of the housing. The Housing Element is an official response to the need to provide housing for all economic segments of the population. It establishes policies that will guide County decision making, and sets forth an action plan to implement housing goals through 2005.	<b>Neg</b>	11/16/2001

2001101104	Elementary School Number 30 Riverside Unified School District Riverside--Riverside K-6 Elementary School to serve 1,100 students and staff.	<b>Neg</b>	11/16/2001
2001102089	Seabreeze Marina Tunnel Sealing and Wetland Enhancement Project Oakland, Port of Oakland--Alameda The Seabreeze Marina Tunnel Sealing and Wetland Enhancement Project (project) involves a combination of remediation and habitat enhancement elements which will take place at the project site within approximately the same time frame. The project site is located at the Seabreeze Marina (also known as Clinton Basin), at the west end of Sixth Avenue, between the Embarcadero and the Oakland Estuary. The site is approximately 7 acres in size. The Port proposes to remediate and close two remnant, underground tunnels that previously transported cooling water to and from a former power plant at the project site. The two tunnels extend from the northern portion of the site to the southwest and northwest shoreline areas, respectively. Tunnel remediation would include the excavation of some contaminated material inside the tunnels, and the sealing of the tunnels approximately 50 feet from the shoreline to prevent the potential for the discharge of contaminants contained in the tunnels to surface waters. In addition, the Port is proposing a plan for habitat restoration and wetland enhancement at the project site, along the beach on the southwest side of the site. Wetland enhancement activities would include the creation of a tidal channel, the creation of a tidal marsh and the enhancement of roosting areas for shore and water birds.	<b>Neg</b>	11/20/2001
2001102091	Telecommunication Tower Santa Cruz, City of Santa Cruz--Santa Cruz The project consists of a Major Modification to Special Use and Design Permits (93-249) for an existing emergency communications center to allow the construction of two new 100-foot tall telecommunications towers. One tower is planned to be installed at this time, and a second tower may be added at a later date. The proposed tower will appear to be a 100-foot tall artificial tree resembling an evergreen tree, such as a Douglas Fir or Redwood. The proposal also includes construction of a 600 square foot equipment building. The mono-pine antenna structure will house as many as 30 "ship" antennas, 24 "panel" antennas, and 2 microwave dishes.	<b>Neg</b>	11/22/2001
2001101098	Interim Use of the San Manuel Tribal Governmental Center Site as a Temporary Parking Lot San Manuel Band of Mission Indians Highland--San Bernardino The project consists of interim use of the Tribal Governmental Center site as a temporary parking lot for visitors to the Reservation and Casino. The project will provide approximately 1,300 parking spaces, of which 300 are existing spaces.	<b>TRI</b>	11/09/2001

2001072016	Lone Tree Center Brentwood, City of Brentwood--Contra Costa The proposed Lone Tree Center project involves the construction and operation of a commercial/retail development on an approximately 20-acre site in the northeast portion of the City of Brentwood. The project would include a discount grocery store and several adjacent retail services.	<b>EIR</b>	12/03/2001
2001062042	Tahoe City Marina Expansion Master Plan (EIAQ-3652) Placer County --Placer Expansion of the existing Marina.	<b>NOP</b>	11/19/2001
2001101108	Western Riverside County Multiple Species Habitat Conservation Plan (MSHCP) Riverside County Riverside--Riverside The County's proposed MSHCP will be a comprehensive plan that seeks to conserve up to 164 species within a reserve system of approximately 510,000 acres pursuant to State and Federal endangered species laws. The MSHCP would establish a reserve system, with a focus on conserving species and the habitats upon which they depend, through conservation and management. The MSHCP will describe strategies to conserve federally listed and unlisted species and their habitats identified for inclusion and management, while allowing incidental take of endangered and threatened species associated with development. Development may include residential, commercial, industrial and recreational development; public infrastructure; and maintenance of public facilities. This plan would allow the county and other participating jurisdictions to retain local control over land use decisions, provide for critical public infrastructure projects, and sustain economic growth.	<b>NOP</b>	11/19/2001
2001101109	Canyon Hills Manor Anaheim, City of Yorba Linda, Anaheim--Orange The proposed project consists of an approximately 25,000-square foot two-story structure that would house a wedding and banquet facility. In addition, a 2,000-square foot maintenance building is also proposed. The main building would contain two wedding chapels, two banquet rooms, restrooms, two bars, lounges, dressing rooms, and one central kitchen. A smaller 2,000-square foot maintenance building would also be provided. The area surrounding the facility will be landscaped or improved with an asphalt parking area. One gated access road and two parking areas will be provided.	<b>NOP</b>	11/19/2001
2001102095	Newby Island Corporation Yard Project San Jose, City of San Jose--Santa Clara Relocation of the Browning Ferris Industries, Inc. (BFI) corporation/service yard and administrative offices from their existing location in San Jose to 16.8 acres that is immediately adjacent to the Newby Island Recyclery and Sanitary Landfill. Project will include proposed General Plan Amendments, Planned Development Rezoning, revisions to San Jose Municipal Code Title 18, and associated development permits.	<b>NOP</b>	11/19/2001

2001101101	Arts Center Property Acquisition and Memorandum of Understanding Riverside, City of Riverside--Riverside Proposal of the City of Riverside Redevelopment Agency and University of California, Riverside to acquire properties at Ninth Street and the Main Street pedestrian mall in downtown Riverside and develop a Center for the Arts. Specifically, the Redevelopment Agency will acquire the subject properties, relocate the existing business and sell the property to the University of California, Riverside (UCR) which will develop the proposed facility. The conceptual development plan for Arts Center includes renovation of a historic building for art programming-related uses. Demolition of a commercial building and removal of the parking lot are proposed to accommodate a 250 seat performance hall. The remainder of the site will be developed with a small surface parking lot and sculpture garden. In order to implement the project, the Redevelopment Agency will enter into a Memorandum of Understanding with UCR which sets out the responsibilities of the parties involved.	<b>Neg</b>	11/19/2001
2001101107	AP01-172/MEP 01-173, Rottman - Froman San Clemente, City of San Clemente--Orange Architectural review with a minor exception permit to allow one reduced garage setback and increased retaining wall heights for 17 single family residences on existing lots.	<b>Neg</b>	11/19/2001
2001101112	Kentucky Fried Chicken and A&W Restaurant La Habra, City of La Habra--Orange The KFC/A&W restaurant will occupy 42,627 square feet of the larger 1.7-acre parcel. The project will involve the demolition of the existing 1,750-square foot building and the construction and subsequent operation of a 3,197 square foot fast-food restaurant with a total in-door seating capacity of 60. The proposed fast-food restaurant structure's dimensions will be 35 feet by 92 feet. The dining and order area will consist of 988 square feet, with the remaining area dedicated to the food preparation area (1,985 square feet), the cold storage area (289 square feet), and the restrooms (276 square feet).	<b>Neg</b>	11/19/2001
2001102093	Stockton Waterfront Promenade and Marina Redevelopment Project Stockton, City of Stockton--San Joaquin Use Permit for the renovation and expansion of an existing 103 berth marina to include approximately 298 berths with dockside amenities; a harbormaster building with restrooms and marina amenities; a floating and fixed public dock; a fueling station and floating dock at Morelli Park; renovation of the boat launch ramp at Morelli Park; dry-dock boat storage facility for +/-150 boats at Morelli Park; new pedestrian promenade from Center Street to Morelli Park. The project area consists of 15 acres of water and 7 acres of land located on the southside of the Stockton Channel between Center Street and Interstate 5. The project is located within the boundaries of the West-End Urban Renewal Project No. 1.	<b>Neg</b>	11/19/2001

1996081078	Vesting Tentative Tract Maps 6069 through 6073 Bakersfield, City of Bakersfield--Kern A proposal for five (5) vesting tentative subdivision maps for purposes of single family residential development totaling 263 lots on 132.13 acres, on property zoned R-1 (One Family Dwelling) zone as summarized below. The applicant has requested to waive mineral rights signatures pursuant to BMC 16.20.060 B. 1., and a modification to deviate from City standard as described.	<b>NOD</b>	
1997032027	Walnut Creek-San Ramon Valley Improvement Project East Bay Municipal Utility District The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement (R3-2001-0527) pursuant to Section 1601 of the Fish and Game Code to the project applicant, David McIntire/East Bay Municipal Utility District. The project consists of constructing a pipeline crossing under Walnut Creek using jack and bore methods. The crossing begins at a borepit in Civic Park ball field and crosses under the creek and Civic Drive to the westerly side of Civic Drive intersecting with Carlback Avenue. The steel casing for the bore will be 96 inches diameter and the top of the casing will be 16 feet below the flowline of the creek. The pipeline is for domestic treated water and will be a 69-inch mortar lined and coated pipe.	<b>NOD</b>	
2000081057	Quail Gardens Drive Road Improvements Encinitas, City of Encinitas--San Diego CDFG is executing a Lake and Streambed Alteration Agreement pursuant to section 1603 (SAA #R5-2001-0082) of the Fish and Game Code to the project applicant, Jack Robson, representing Encinitas Ranch, LLP. The applicant proposes to alter the streambed within an unnamed drainage, tributary to the Pacific Ocean to accommodate the construction of 1,800 linear feet of Quail Gardens Drive as an augmented local roadway (two lanes) with storm drains, utilities, and landscaping within a 60 to 72 foot wide right-of-way impacting 0.708 acre of streambed.	<b>NOD</b>	
2000121083	State Route 41 & 33 Sunflower Project to Rehabilitate and Improve Traffic Safety Operations Caltrans #6 Kettleman--San Luis Obispo, Kern, Kings The proposed project between PM 4.2 to PM 7.3 would resurface and rehabilitate the existing roadway surface together with providing drainage improvement, grading, earthwork and shoulder widening. The raising of the grade, installing of new culverts, increasing shoulder width, installing a signal at the intersection of State Route 41 and 33, and reconstruction of Routes 41 and 33 will be on new alignments. The work will be performed from PM 7.3 to PM 11.5 on Route 41 and from PM 6.9 to PM 8.1 on Route 33.	<b>NOD</b>	
2001011011	Atwood Grading Permit/Building Site Approval with Architectural and Site Approval Santa Clara County Los Gatos, Monte Sereno--Santa Clara The project is a proposed single-family residence, access driveway and septic field. The building of the access driveway involves construction of a bridge across	<b>NOD</b>

	a tributary of Almendra Creek. The project also includes rerouting and replacing a water pipeline that bisects the property. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number R3-2000-1355 pursuant to Section 1603 of the Fish and Game Code to the project operator, Greg and Becky Atwood.		
2001082111	Proposed Caltrans Annex I and II Seismic Retrofit Project Caltrans #3 Sacramento--Sacramento The project proposes to structurally retrofit two Caltrans buildings to reduce the seismic risk levels from Risk Level V for Annex I and Risk Level VI for Annex II to an acceptable Risk Level III, as prescribed under the State Building Seismic Program.	<b>NOD</b>	
2001091003	Del Mar Bluff Stabilization, Project 1 North County Transit District Del Mar--San Diego The proposed project involves drainage improvements associated with the North County Transit District (NCTD) railroad right-of-way in the City of Del Mar in order to improve the seaside bluff stability, which is adjacent to the railroad tracks. The project also includes a slope monitoring system. The proposed subdrainage improvements are intended to be a part of a mid-term maintenance and preservation program (+ 20 years) to mitigate previously identified high-risk areas associated with drainage within NCTD right-of-way along the Del Mar bluffs. Subdrainage improvements include the use of interceptor trench drains and hydro-augers as well as the cleaning and rehabilitation of existing structures. Surface drainage improvements are also proposed within the NCTD right-of-way. Surface drainage improvements would consist of new and improved inlets, outlets, and culverts, as well as new ditches and improvements of existing ditches. The surface drainage improvements would consist of approximately 24 surface drainage projects. Lastly, the project would include the installation of a slope monitoring system. The monitoring system would provide early warning of both surface and subsurface movements along the railroad tracks in the project area. The warning system would stop trains entering the bluffs should a landslide endanger the tracks in a high risk area.	<b>NOD</b>	
2001092018	Redwood Community Action Agency Stream Bank Stabilization, Jump Pool Construction & Culvert Replacement/Modification Humboldt County Planning Department --Humboldt Improvement of anadromous and resident fish passage on Widow White Creek and North Fork Widow White Creek.	<b>NOD</b>

<b><u>Documents Received on Friday, October 19, 2001</u></b>			
2001109031	AT&T Development Plan: Hames Creek Emergency Bore, Notification R3-2001-0780 San Luis Obispo County --Monterey The project operator proposes to install fiber optics cable underneath waters of the State via directional boring below a tributary to Salinas River in Monterey County, identified as the Hames Creek Emergency Bore, and to use an existing low-water crossing for construction traffic. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number R3-2001-0780 pursuant to Section 1601 of the Fish and Game Code to the project operator, Kevin Lorenzini/AT&T Corporation.	<b>NOD</b>	
2001109032	Kaiser Aluminium and Chemical Corporation Cleanup Fish & Game #3 Pleasanton--Alameda SAA #R3-2001-0820. Remediate approximately one foot of contaminated soil from a drainage ditch that flows into Sycamore Creek. Kaiser plans to remediate the contamination by excavation and proper off-site disposal of contaminated soil.	<b>NOD</b>	
2001109033	Streambed Alteration Agreement R3-2001-0593 Fish & Game #3 --Napa The installation of a 48-inch culvert to replace an existing 36-inch culvert along a haul road over a Class 1 stream. An oval-shaped culvert will be installed to minimize fill over the culvert. The outlet of the culvert will be rock-armored to prevent bank erosion. The approaches to the crossing will be rocked using cobble and rip-rap and a critical dip will be constructed on the south side of the crossing. To prevent down-cutting on the downstream side of the crossing, the culvert will be realigned to allow water to flow more naturally through the culvert and down the watercourse channel.	<b>NOD</b>	
2001109035	Streambed Alteration Agreement for Notification #01-0439 Forestry and Fire Protection, Department of --Humboldt The California Department of Fish and Game is executing a lake and streambed alteration agreement pursuant to section 1603 of the Fish and Game Code to the project applicant, Mr. Gerhard E. Larsen representing Simpson Timber Company. The applicant proposes two crossings for timber harvesting activities on unnamed tributaries to McNeil and Savage Creeks, Humboldt County.	<b>NOD</b>	
2001109036	Streambed Alteration Agreement for Notification #99-0658 Forestry and Fire Protection, Department of --Siskiyou The California Department of Fish and Game is amending the Lake and Streambed Alteration Agreement pursuant to Section 1603 of the Fish and Game Code as requested by the project applicant, Mr. Tom Shorey representing Fruit Growers Supply Company. The applicant proposed rock armoring in connection with timber harvesting activities on Mule Creek, Siskiyou County.	<b>NOD</b>

2001108354	South Fork Noyo River, Sill Modification to Improve Fish Passage Fish & Game #3 --Mendocino The water diversion at the Jackson Demonstration State Forest, more notably, the subject's concrete sill, has proven to be, under low flow conditions, a barrier to migrating adult coho salmon. It should also be considered a passage issue for juvenile salmonids. Up to ten miles of stream course were not utilized by coho salmon because of this impediment. The Department will modify the sill by building a concrete weir type of structure on the downstream side of the sill which will result in a single pool fish ladder. The weir will be constructed with concrete and rebar. A low flow notch will be placed mid-channel to concentrate flow and facilitate passage.	<b>NOE</b>	
2001108355	Manhattan Beach Pier Roundhouse Rehabilitation Manhattan Beach, City of Manhattan--Los Angeles Renovate the Roundhouse building at the west end of the Manhattan Beach Pier by: replacing the flooring, removing and replacing the wall board with a more weather resistant material, replacing the window system, renovating and expanding the electrical system, replacing the existing sewer pumps that service the building, renovating and upgrading the ventilation system.	<b>NOE</b>

2001108357	<p>Transfer of Funds for Handicap Ramp Construction, Replacement of Existing and Inadequate Waterline and Repavement of San Luis Avenue</p> <p>Pismo Beach, City of</p> <p>Pismo Beach--San Luis Obispo</p> <p>The City of Pismo Beach plans to use Community Development Block Grant funds to install handicapped ramps in the public sidewalk at 24 street intersections and replace an existing 4" waterline that provides inadequate fire flow. Along with the waterline replacement, San Luis Avenue will be re-paved from Dolliver Street to Price Street. The project will improve handicapped access, public safety, the fire flow of an inadequate waterline, and meet the Federal American With Disabilities Act (ADA) requirements. Improvements will be located entirely within the public right-of-way, and the sidewalks and streets involved are conventional, residential, commercial and collector streets, which have been improved to current State and Local standards. The physical changes are minor, involving mainly replacing a small section of sidewalk, curb and gutter with a ramp to provide access to handicapped persons and minor physical changes to replace an existing 4" waterline. In addition, the State Department of Historic Preservation has reviewed the results of the archaeological record search and determined that a professionally qualified archaeologist shall monitor the construction phase of the waterline replacement.</p>	NOE	
2001108358	<p>Fish Creek Restoration Project</p> <p>Fish &amp; Game #5</p> <p>Azusa--Los Angeles</p> <p>The Operator proposes to alter the streambed by permanently restoring Fish Creek within the northern portion of the quarry to a location representative of its pre-mining condition, or approximate position in 1954, as described in the Habitat Restoration Plan for Fish Creek, Los Angeles County, California, dated May 2001. The project involves replicating geomorphic/hydrologic processes and implementation of a comprehensive restoration plan to restore functional habitat values to the creek channel. In addition, a fish barrier within the northern portion of the project site will be removed.</p>	NOE	
2001108359	<p>Rancho Jamul 16" Pipeline Repair</p> <p>Fish &amp; Game #5</p> <p>--San Diego</p> <p>The Operator proposes to alter the streambed by placing thirty two 24-inch A-jack units between the stream banks in order to allow sediment to be redeposited over exposed sections of a water main pipe. No trenching or heavy equipment will be required for the repair. Hand labor will be used to carry the A-jacks to the stream channel. Upland vegetation consists of nonnative grassland and coastal sage scrub. The intermittent stream is considered waters of the State and contains willow and mulefat scrub vegetation. The Operator shall not impact more than 60 square feet of streambed. All impacts are considered temporary and consist of 60 square feet of intermittent streambed with willow and mulefat scrub vegetation. The project area is located west of the Rancho Jamul Estates in the City of Jamul, San Diego County.</p>	NOE

2000012039	Tracy Wastewater Treatment Plant Expansion Project Tracy, City of Tracy--San Joaquin The project involves increasing the wastewater treatment capacity of the existing wastewater treatment plant to correspond with projected population growth in the City of Tracy. Increase plant capacity would be made possible by installing additional treatment facilities on unused portions of the existing site. A new effluent conveyance pipeline and outfall to Old River is also proposed as part of the expansion. In addition to an increased wastewater flow capacity, the plant would be upgraded in anticipation of more stringent effluent discharge requirements.	<b>EIR</b>	12/12/2001
2000091028	Specific Plan No. 317, The Retreat Specific Plan; Draft Environmental Impact Report No. 425; Comprehensive General Plan Amendment No. 486 /Change of Zone 6397 Riverside County Planning Department --Riverside The project is 1032 acres in size and includes 167.3 acres of residential with a maximum unit count of 540, 15.2 acres of commercial; 8.0 acres of parks; 557.5 acres of natural open space, a 252-acre golf course and 32 acres of roadways.	<b>EIR</b>	12/05/2001
2001101122	Construction of Minimum Security Women's Facilities at the PJPC Los Angeles County Sheriffs Department --Los Angeles The proposed expansion would involve the constriction of five security barracks and one multipurpose building on 1.72 acres of land within the existing fence line of the Peter L. Pitchess Detention Center. Each barrack will be approximately 3,500 feet and will contain beds and living quarters for 32 inmates. The multipurpose building will support inmate processing, inmate services, indoor recreation and activities for inmates housed in the proposed barracks, as well as inmates housed in four barracks adjacent to the proposed action.	<b>JD</b>	11/26/2001
2001101114	Central Los Angeles Area New High School #10 Los Angeles Unified School District Los Angeles, City of--Los Angeles LAUSD proposes to construct a new high school on properties bounded by Emerald Drive on the north, West 2nd Street and Bixel Street on the east, West 4th Street and Miramar Street on the south, and Lucas Avenue on the west in the City of Los Angeles. The proposed high school would have a total enrollment of 2,381 students in grades 9-12 with approximately 1,701 students in session at one time. The proposed high school would contain a total of 72 classrooms consisting of 59 regular classrooms, ten special education classrooms and three set-aside classrooms. Site is comprised of 110 parcels, and is approximately 20.5 acres in size (with the field being approximately 17 acres and the building being approximately 3.5 acres).	<b>NOP</b>	11/20/2001

	acres of the 3.16-acre project site and 71,595 square feet with a maximum height of 47 feet. The site is to be accessible from the main entrance off of New Hampshire Avenue, the surface parking area off of 1st Street, and the service entrance off of New Hampshire Avenue, the surface parking area off of 1st Street, and the service entrance off of Vermont Avenue. A total of 39 classrooms are to be constructed including: 4 kindergarten classrooms, 29 general purpose classrooms, 5 special day classrooms, 1 set aside classroom, and administration/multi-purpose building, and a food service building with a lunch shelter. Two acres of the project site are to be dedicated to a playground area including kindergarten play areas, a turf multi-use athletic field, and play court areas. As part of the proposed project, the existing residences and businesses would be relocated and the alley that bisects the project site would be vacated as it traverses the project area.		
2001101121	El Toro Redevelopment Project Area Specific Plan Lake Forest, City of --Orange The proposed project is the El Toro Redevelopment Project Area Specific Plan by the City of Lake Forest through the authority granted by California Governmental Code, Title 7, Division 1, Chapter 3, Article 8, Sections 65450 and 65457. The Specific Plan establishes goals, programs and development standards and establishes the permitted, conditionally permitted and prohibited uses to address the special land use, circulation, economic and aesthetic uses in the El Toro Redevelopment Plan Area Specific Plan. The Specific Plan will establish three unique zoning districts: Commercial Urban, Pedestrian-Oriented Commercial, and Commercial Limited, each with its own development standards and land uses. El Toro Road is a major thoroughfare and gateway to the City. A goal of the Specific Plan is to guide appropriate public and private development efforts in order to improve the circulation system and encourage economic growth in the project area in accordance with the design guidelines and implementation policies set forth in the Specific Plan.	<b>NOP</b>	11/20/2001
2001102102	Stonestown Village Project; 3251 20th Avenue San Francisco Planning Department San Francisco--San Francisco Located at the northwest corner of the existing Stonestown Shopping Center, the project site includes a two-screen cinema and about 1,455 surface parking spaces. The proposed project is to demolish the existing cinema and surface parking lots and to construct a retail/residential development. The proposed retail component, totaling approximately 114,950 gross square feet (gsf) would consist of a 70,000 gsf expansion to the Stonestown Galleria, a 38,250 gsf grocery store, and a 6,700 gsf neighborhood serving retail. Approximately 1,772 parking spaces would be provided for the new retail uses in two five-level parking structures, surface parking, and rooftop parking. The residential component would consist of 85 assisted living units, 329 market-rate residential units and 370 parking spaces. The residential community would consist of four buildings, a 12-story residential tower at 130-feet in height and three buildings at 40 feet in height. The proposed project would require the subdivision of lot 22. To implement this project, this proposed project would require a Conditional Use authorization (CU) to amend the existing Planned Unit Development (PUD) to modify parking and rear yard setback	<b>NOP</b>	11/20/2001

	requirements and to increase the residential density for the apartment community. In addition, an amendment of the Zoning Map would be needed to change the height district from 40 feet to 130 feet. The project site is within Assessor's Block 7295 and includes portions of Lots 21 and 22.		
2001102103	Foster City General Plan Revision Foster City Foster City--San Mateo General Plan Revision, including the following elements: Land Use and Circulation, Noise, Parks, Open Space, Conservation, and Safety.	<b>NOP</b>	11/20/2001
2001102104	Lexington Quarry Expansion Santa Clara County --Santa Clara The proposed project is the expansion of the existing Lexington Quarry by 5.6 acres, for a total quarry area of 59.6 acres. The proposed expansion would require modification of the existing Use Permit for the quarry issued in 1990. Also proposed is extending operating hours to include an eight-hour day on Saturday. Lexington Quarry harvests earth materials (primarily hard graywacke sandstone), processes it on-site, and sells it to customers on a retail basis. Materials produced from the quarry site include roadbase materials and construction aggregate. The proposed project would extend quarrying to the southerly portion of the east quarry face (Figure 2). The quarry boundary under the Use Permit would also be expanded to include an existing settling basin adjacent to Limekiln Road. The proposed expansion of the quarry would yield approximately 1.8 million tons, or 1.2 million cubic yards of material. Excavation of remaining materials within the quarry (including the expansion area) would occur over a 16-17 year period, with an additional two years required for completion of quarry reclamation measures. Reclamation measures for the quarry and quarry slopes include planting quarry benches with trees and shrubs and reestablishment of a tributary creek channel through the center of the quarry.	<b>NOP</b>	11/20/2001

2001109042	Annexation and Imposition of Water Standby Charges for 32.44 Acres to be Concurrently Annexed as the 71st Fringe Area Rancho California Water District --Riverside Concurrent annexation of the 71st Fringe Area to Eastern Municipal Water and Metropolitan.	<b>NOD</b>	
2001109043	Annexation and Imposition of Water Standby Charges Metropolitan Water District of Southern California --Ventura Concurrent annexation (Annexations Nos. 72 and 74) of 5.99 acres to Calleguas Municipal Water District and Metropolitan.	<b>NOD</b>	
2001109048	Lands of Forrest Residence at Kennedy Road Los Gatos, City of Los Gatos--Santa Clara The project includes trenching across Shannon Road to access an existing 30-inch culvert at Shannon Creek. A 12-inch culvert will be installed in the trench and will attach to the 30-inch culvert to carry runoff from the property and driveway located at the intersection of Kennedy Road and Shannon Road in Los Gatos, Santa Clara County. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2001-0718 pursuant to section 1603 of the Fish and Game Code to the project operator, Rich Forrest.	<b>NOD</b>	
2001108366	Boat Ramp Repair Boating and Waterways, Department of --Glenn The Department of Boating and Waterways proposes to repair the boat ramp at Irvine Finch River Access. The repair is necessary to stop the undermining of the boat ramp, due to wave action. The proposed repair consists of installing a stem wall that is 1-foot wide by 2-feet deep by 40-feet long that is butted to the existing boat ramp. River rocks adjacent to the new stem wall will be grouted to provide additional protection.	<b>NOE</b>	
2001108367	Bear Gulch Dam, No. 581-6 Water Resources, Department of Atherton--San Mateo Install three (3) slope inclinometers and drill one exploratory borehole on the dam.	<b>NOE</b>	
2001108370	Installation of an LM6000 Simple-Cycle Generating Turbine at the Burbank Water and Power Magnolia Plant Burbank, City of Burbank--Los Angeles The proposed project includes the installation of the LM6000 simple-cycle turbine with a Selective Catalytic Reduction (SCR) system to reduce NOx emissions to nitrogen and water. The SCR process uses a catalyst to facilitate a reaction between the NOx and aqueous ammonia, reducing NOx emissions to nitrogen and water. The existing on-site ammonia tank is to be utilized for the project and the ammonia will be delivered by truck about one every two weeks.	<b>NOE</b>

<b><u>Documents Received on Monday, October 22, 2001</u></b>			
2001108371	Vineyard Sub-Drain Outlet to Mark West Creek Fish & Game #3 --Sonoma The applicant, Hambrecht Vineyards and Winery, proposes to construct a vineyard sub-drain outlet to collect groundwater from a 9-acre vineyard and discharge it to Mark West Creek. Issuance of a Streambed Alteration Agreement Number R3-2001-0758 pursuant to Fish and Game Code Section 1603.	<b>NOE</b>	
2001108372	Snell Creek Gravel Extraction Fish & Game #3 --Napa The operator proposes to extract gravel from a gravel bar in Snell Creek located at the junction of Snell Valley Road and Stage Coach Road in Pope Valley, Napa County. The gravel bar is approximately 100 feet long and 45 feet wide. Approximately 18 to 24 inches of gravel will be extracted and transported to the residence at 2412 Stage Coach Road. The gravel will be spread on the road and used as a base for all weather access. The gravel will be extracted by a small front end loader and loaded into a five yard dump truck to be transported to the disposal site. No vegetation will be impacted by the project and the gravel bar will be leveled after the extraction is completed. The bar shall remain higher than the channel bottom and continue to function as a gravel bar to minimize the change in hydrology of the Creek. Issuance of a Streambed Alteration Agreement Number R3-2001-0845 pursuant to Fish and Game Code Section 1603.	<b>NOE</b>	
2001108373	Culvert Repair at Rowes Creek Fish & Game #3 --Mendocino The Sylvandale Road Association will clear vegetation, install rip-rap, and repair the existing culvert. Issuance of a Streambed Alteration Agreement Number R3-2001-0617 pursuant to Fish and Game Code Section 1603.	<b>NOE</b>	
2001108375	Agreement R4-2001-0068; Rattlesnake Creek Fish & Game #4 --Tuolumne The Operator will install an additional 96-foot wide debris screen 30 feet upstream of the existing facilities at the site of the Rattlesnake Creek/Grizzly Creek diversion dam and tunnel. This new larger debris screen has been determined to be necessary to reduce the potential for contamination of the municipal water supply, and to ensure that the system continues to function as designed during a major storm. Disturbed streambanks will be recontoured and revegetated.	<b>NOE</b>	
2001108376	Agreement R4-2001-0113; North Fork Kaweah River, Removal of Fill from Floodplain Fish & Game #4 --Tulare Removal of fill previously deposited on property during the Spring of 2000. Prepare site for residential house construction.	<b>NOE</b>

	120,000 cubic yards of on-site soil and placed over the Landfill surfaces. Closure of the Landfill will be in accordance with requirements from Title 27 of the California Code of Regulations. The Final Closure and Post-Closure Maintenance Plans will require approvals from the County San Diego Board of Supervisors, California Integrated Waste Management Board (CIWMB), San Diego Regional Water Quality Control Board (RWQCB), San Diego Air Pollution Control District (APCD), and County of San Diego Department of Environmental Health, Local Enforcement Agency (LEA).		
2001101128	Commerce Draft General Plan Commerce, City of Commerce--Los Angeles The proposed project involves the comprehensive update of the City of Commerce General Plan. The draft general plan consists of an integrated and internally consistent set of policies and programs that address the seven issue areas that the State requires local general plans to consider: land use, circulation, housing, noise, safety, conservation, and open space. The draft general plan also addresses a number of other, including economic development, urban design, and recreation. The Commerce General Plan consists of six elements that comply with the requirements of California Government Code Section 65300, et. seq. The draft general plan contemplates a change in the land use designation for nine distinct areas of the City totaling approximately 176-acres. These changes in the types and/or intensity of future development for these nine areas represent the physical environmental changes that may be realized through the implementation of the draft general plan.	<b>NOP</b>	11/21/2001
2001101100	Barrack Minor Subdivision San Diego County Department of Planning and Land Use --San Diego The project is for the minor subdivision of the 13.2 acre Barrack property, Assessor's Parcel Number (APN) 513-130-13, into four legal parcels and a remainder parcel. Parcels 2, 3, and 4 will take access from Eucalyptus Drive, and Parcel 1 and the Remainder Parcel will take access from Dehesa Mountain Lane at the northern boundary of the project site. The project will grade 5000 cubic yards of cut at a slope at 1.5:1 slope and 500 cubic yards of fill at a slope of 2:1. The project will directly impact 2.29 acres of Coastal sage scrub, and 0.69 acres of Non-native grasslands. The project will fully mitigate for the loss of Coastal sage scrub and Non-native grasslands with onsite preservation and offsite purchase of habitat in a County approved mitigation bank. Impacts to 2.29 acres will be mitigated at a 1.5:1 ratio with the onsite preservation of 3.56 acres of Coastal sage scrub proposed in a biological open space easement. Non-native grasslands will be mitigated at a 0.5:1 ratio through the onsite preservation of 0.13 acres to Tier II Coastal sage scrub, and the purchase of 0.22 acres on Non-native grassland or better habitat in a County approved mitigation bank.	<b>Neg</b>	11/21/2001
2001101123	Alicia Parkway Widening Mission Viejo, City of Mission Viejo--Orange The proposed roadway widening consists of improvements to Alicia Parkway from Charlinda Drive to Muirlands Boulevard. Alicia Parkway, east of I-5, is built as a six-lane divided Major arterial Highway in the City of Mission Viejo. The project	<b>Neg</b>	11/21/2001

	involves widening the street from the present width of six-lanes to seven-lanes on the westbound side of Alicia Parkway. The additional seventh lane will be constructed in the westbound direction from Muirlands Boulevard to Charlinda Drive. The additional lane will operate as a combination through-right turn lane beginning at the intersection of Alicia Parkway at Muirlands Boulevard, continue westbound through the Alicia Parkway at Charlinda Drive intersection, and transition into the existing, exclusive right-turn lane onto the northbound I-5 freeway ramp. The roadway widening is proposed to occur within existing City public right-of-way that is currently improved with landscaping and a meandering sidewalk. The project also includes curb, gutter, sidewalk removal and construction, traffic signal and striping modifications, street lights, catch basin relocations, and relocation of directional signs. The project is intended to improve the operation and traffic flow within the project area, improve freeway accessibility to the I-5, and implement the planned roadway improvements per the Major Arterial designation standards.		
2001101127	Miles Avenue Bridge Replacement Over the Whitewater River Channel Indian Wells, City of Indian Wells--Riverside Replacement of temporary low-water crossing at Miles Avenue of the Whitewater River Channel, north of State Highway 111, with a new bridge; installation of channel drop structure, concrete channel lining slope protection, and sewer pump station.	<b>Neg</b>	11/21/2001

	impacts of a retail development on an adjacent 16.2-acre parcel, a portion of which is currently developed with the Petaluma Cinema (no longer in operation). The project would include the preservation of 0.76 acres of wetlands on-site, the creation of an additional 0.33 acres of wetland on-site. The applicants would also provide for 7.38 acres of wetlands off-site. This mitigation plan has been submitted to the US Army Corps of Engineers although it has not yet been approved.		
2001071116	Casa Ramona Renovation Project San Bernardino, City of San Bernardino--San Bernardino The proposed renovation will involve the demolition and replacement of the side and rear wings of the existing Casa Ramona structure, while retaining the front facade of the Casa Ramona. The original front facade will be upgraded to comply with current seismic design criteria. This portion of the building will remain a one-story structure, while the proposed side and rear wings would be a combined one- and two-story structure. The new structure would be L-shaped in plan, with an open central courtyard and an outdoor courtyard at the western side. Parking areas would surround the structure to the west, northeast, and north. The new Casa Ramona will have 41,181 square feet of building floor area excluding covered walkways and courtyards, about 10,175 square feet more than the existing facility. The project site is not listed in the State of California Hazardous Waste and Substances Sites list pursuant to Government Code Section 65962.5(E).	EIR	12/10/2001
2001072007	El Dorado Union High School District's Proposed Sixth High School El Dorado Union High School District --El Dorado The El Dorado Union High School District proposes to acquire 215 +/- acres of land and construct a High School and Stadium on 65 +/- acres in an area located south of the Town of El Dorado Hills in El Dorado County. The proposed site is located to the west of the intersection of Lathrobe Road and Wetsel-Oivatt Road.	EIR	12/10/2001
2001101132	Oil Drilling; 680 Westminster Avenue Long Beach, City of Long Beach--Los Angeles Establish Oil Extraction Districts. 	system, power supply, conveyance piping and minimal vehicle access route improvements. Contaminated groundwater will be remediated to levels which meet the requirements of the State Water Resources Control Board's Resolution 92-49 (i.e., background or non-detect).		
1998022083	The Village at Squaw Valley USA Placer County --Placer This agreement pertains to the Village at Squaw Valley project. Authorized activities include construction of a new bridge (Village East Bridge) on Squaw creek to improve traffic circulation within Squaw Valley, CA. The bridge is located to align with the future extension of Village East Road. The Village East Bridge will consist of a 64.5 ft by 52 ft steel span with abutments located outside the 100-yr floodplain. Abutment scour protection will be placed on the banks of the creek, above the normal high water line.	NOD	
1999072094	Carnegie Foundation Research / Office Facility Santa Clara County Palo Alto--Santa Clara Use Permit and Architectural and Site Approval for a proposed 21,000 square-foot educational office/research facility. The project also includes a subdivision of 20 acres of Stanford University land as per the Subdivision Map Act for the applicant to lease from the University.	NOD	
2001062068	Revised San Francisco Bay Area 2001 Ozone Attainment Plan Bay Area Air Quality Management District --Alameda, Contra Costa, Marin, Napa, San Francisco, ... The proposed plan identifies a set of control measures to be implemented throughout the San Francisco Bay Area to reduce air pollutant emissions in order to attain the national one-hour ozone standard. The revised plan includes stationary source control measures, transportation control measures and a mobile source control measure. The Plan was prepared in response to US Environmental Protection Agency Action.	NOD	
2001082015	Kernen Construction - Morris Logging Contractors' Yard Humboldt County Blue Lake--Humboldt Development of a logging and construction company yard to be used for storage of equipment and other uses related to off site logging and construction activities. The project includes construction of an approximately 13,125 square foot metal building, approximately 28 feet in height to be used for equipment storage. The project will bring into compliance a contractors' yard (logging and construction) and office which was initiated prior to securing necessary permits. The +/- 5 acre parcel is developed with paved areas, an oil/water separator, settling basin, security fence and a commercial coach. A portion of the equipment storage building will contain a closed system equipment wash rack to eliminate dirt, diesel and oil from entering into storm water drainages. The project includes landscaping along Glendale Drive. Associated uses may include intermittent log or chip storage, aggregate storage, and timber products processing such as chipping brush and firewood making. Community water and sewer services are proposed to serve the parcel. Approximately 60% of the parcel is developed with asphalt	NOD

	bed material to facilitate the placement of a 60-inch corrugated steel culvert in the creekbed. Heavy equipment, such as the excavator, will operate on upland areas adjacent to the bank. The work area is limited to 20 feet on either side of the crossing. No work shall be done, nor material stored, within the wetlands area adjacent to the crossing site. The culvert will be placed 4 inches below the grade to allow for unimpeded flow and native bed material will be placed inside the culvert to recreate a natural creek bottom. The culvert will be covered with three feet of fill, and bordered with fill and gravel on each side for a total width of 56 feet at the approaches to the crossing. Issuance of a Streambed Alteration Agreement Number R3-2001-0765 pursuant to Fish and Game Code Section 1603.

	equipment. All work will be performed on existing equipment within the facility and switchyard.		
2001108526	<p>Lankershim Elementary School Playground Addition Removal Action Workplan (RAW)</p> <p>Toxic Substances Control, Department of, California Environmental Protection Agency</p> <p>Los Angeles, City of--Los Angeles</p> <p>The Removal Action Work Plan (RAW) specifies cleanup procedures to be implemented at the proposed Lankershim Elementary School Playground Addition (Site) for the immediate excavation, removal, backfill, and off-site disposal of soils contaminated with organochlorine pesticides (chlordane and dieldrin), and metals (lead). Excavation, sampling, and restoration activities are expected to occur over a ten-day period. Approximately 1,850 cubic yards of contaminated soil will be excavated across the Site and confirmation samples will be collected to verify the specified cleanup goals (chlordane - 0.4 mg/kg, dieldrin - 0.4 mg/kg, and lead - 255 mg/kg) have been achieved. The cleanup concentrations were established as part of the human health screening conducted in conjunction with the previous investigations.</p>	<b>NOE</b>	
2001108527	<p>HHWVAR010901 - Variance to the City of Los Angeles to Operate Three-Day Household Hazardous Waste (HHW) Collection Events</p> <p>Toxic Substances Control, Department of</p> <p>Los Angeles, City of--Los Angeles</p> <p>Variance to the City of Los Angeles from hazardous waste facility permit requirements. The variance is limited to the three-day household hazardous waste (HHW) collection events listed above. The collections provide appropriate means of disposing of household and conditionally exempt small quantity generator (CESQG) hazardous waste. The variance is based on the evidence that: 1) The three-day collections are to be operated similar to permit-by-rule temporary HHW collection facilities; 2) Only personnel trained in hazardous waste management shall handle or package hazardous waste; 3) All collected wastes will be manifested and transported by registered transporter to permitted hazardous waste recycling, storage, or disposal facilities within 144 hours after each waste collection event has ended.</p>	<b>NOE</b>	
2001108528	<p>Readoption of Emergency Regulations for the Continued Implementation of the Groundwater Remediation Loan Program</p> <p>Toxic Substances Control, Department of</p> <p>--</p> <p>The Water Bond Act of 1999, Section 79133 of the Water Code, requires the Department of Toxic Substances Control (DTSC) to adopt regulations in order to implement a new loan program for groundwater remediation projects. The proposed readoption of emergency regulations would continue the established loan criteria in order to provide loan funds of \$7,000,000 (seven million dollars) to local agencies who may not otherwise be able to address local water contamination problems. DTSC has received several public inquiries regarding the development of the proposed regulations, and DTSC recognizes the need to provide timely access to this funding. DTSC is coordinating with the State Water Resources Control Board (SWRCB) to assure that its regulations are consistent with the fiscal management and loan administration of the Clean Water Program.</p>	<b>NOE</b>

2001101147	Tentative Parcel Map 0158 Lemon Grove, City of Lemon Grove--San Diego The project proposes to subdivide one parcel into three parcels for single-family residential development. Proposed parcel areas range from 10, 279 to 12, 938 square feet. There is a natural drainage creek located along the north property line. The drainage creek is seasonal and has flowage through it during the rainy season. The project includes upgrading of the existing drainage facilities within the creek. The parcel consists of non-native vegetation.	<b>Neg</b>	11/26/2001
2001101148	EAKC12-01; Cup 18, ZV 10, Map 238: Arne Haaland by French & Associates Kern County Planning Department --Kern A conditional use permit to allow the boarding of up to 30 horses and to allow an annual private party for up to 500 people.	<b>Neg</b>	11/26/2001
2001102117	City of Vacaville Housing Element Revision Vacaville, City of Vacaville--Solano The project consists of a revision to the City of Vacaville Housing Element, as mandated by State Law. The Draft Housing Element contains policies and programs for the development, conservation and rehabilitation of housing between January 1999 and June 2006.	<b>Neg</b>	11/26/2001
2001102118	Cross Roads Church San Jose, City of San Jose--Santa Clara Planned Development Rezoning/Prezoning from R-1-8 (CL), A-Agriculture, and unincorporated land to A (PD) Planned Development Zoning District and subsequent permits to allow 36,357 sf church on a 7.24 gross acre site.	<b>Neg</b>	11/26/2001
2001102119	Phase I & II of South Volonte Park Anderson, City of Anderson--Shasta This project consists of a Proposed Mitigated Negative Declaration for the creation of a skate park, wildlife viewing area, parking area, ball park and nature trails on 33.7 acres within the City of Anderson.	<b>Neg</b>	11/26/2001

2001102123	EG-01-177 Chezimme Estates Elk Grove, City of Elk Grove--Sacramento The project calls for a Community Plan Amendment, Conditional Use Permit, Rezone, Parcel Map, Tentative Subdivision Map, Exception, and Special Development Permit to create 14 single-family lots on a 6.99 acre parcel. The development would be a gated community with private streets.	<b>Neg</b>	11/26/2001
2001102146	Lodi Energy Center Lodi, City of Lodi--San Joaquin The City of Lodi proposes to construct and operate a nominal net 47 megawatt (MW) "simple-cycle" power plant, referred to as Lodi Energy Center (LEC). The plant will be constructed on property owned by the City of Lodi located at 1215 East Thurman Street, east of State Highway 99. The parcel (Assessor's Parcel number 049-070-75) is approximately 8.1 acres and the plant will occupy a two-acre portion of the parcel. The property is located in an industrial zoned portion of the City of Lodi, east of State Highway 99. The City of Lodi will own and operate the power plant. It is anticipated that the plant will operate an average sixteen hours perday and an average six days per week. A 5.6-mile, high-pressure, natural gas pipeline will be constructed from the plant site to the existing Lodi Gas Storage facility located in San Joaquin County. Electrical transmission facilities will connect directly to the Fred M. Reid electrical substation, which is located on the same City-owned parcel as the proposed power plant facility. Construction is planned for mid-2002 and commercial operations are scheduled to begin in late 2002.	<b>Neg</b>	11/29/2001
1985101602	Sweetwater Reservoir Recreation Master Plan-Shoreline Fishing Program Draft Supplemental EIR San Diego County Chula Vista--San Diego Shoreline Fishing Program to allow public recreation along 2.5 miles of the southwest shoreline of Sweetwater Reservoir. This project has been reduced from that analyzed in the 1987 Final EIR and consists of the following phased elements: Use of existing residence for office/concession building; widen existing onsite maintenance road; improve existing trails; construct a 150-space parking lot; and install water lines, irrigation, landscaping, and portable restrooms. Installation of sewer to residential unit; annexation to Bonita-Sunnyside Fire Protection District.	<b>SIR</b>	12/09/2001
1992121051	Alvarado Water Filtration Plant Expansion and Rehabilitation San Diego, City of San Diego--San Diego This project involves expansion of the plant to a maximum capacity of 212.5 million gallons per day (mgd); and modernization of the plant to allow implementation of technology to achieve compliance with the 1986 amendments to the Federal Safe Drinking Water Act. The overall improvements for the Alvarado WTP, as reviewed in an Environmental Impact Report dated May 20, 1994 (LDR No. 88-0459) were approved by the City Council in August 1997. The project includes four additional components of the project, which include the replacement of the Earl Thomas Reservoir, the construction of new pipelines to connect the new Earl Thomas Reservoir to the recently constructed 21 million gallon (mg)	<b>NOD</b>

<b><u>Documents Received on Monday, October 29, 2001</u></b>			
2000102108	Addressing the San Jose Housing Opportunities Study Phase II Amendments to the San Jose 2020 General Plan (Revised) San Jose, City of San Jose--Santa Clara The proposed project includes a series of Land Use/Transportation Diagram amendments and modifications to two land use categories, in support of Housing Opportunities Study, Phase II. The proposed changes are intended to reinforce City General Plan policies regarding efficient use of land and to promote higher density and mixed use development.	<b>NOP</b>	11/27/2001
2001101149	Palo Verde Irrigation District (PVID) Land Management, Corp Rotation and Water Supply Program Palo Verde Irrigation District Blythe--Riverside, Imperial The proposed program is planned to develop a flexible and reliable water supply for The Metropolitan Water District of Southern California (Metropolitan) of approximately 25,000 to 111,000 acre-feet of Colorado River water per year for 35 years. Participants who commit to the proposed Program would be compensated by Metropolitan for not irrigating a portion (up to approximately 29%) of their farms on a rotating basis. Water saved under the proposed program would be made available to Metropolitan to help meet existing demand within its service area.	<b>NOP</b>	11/27/2001
2001102125	Upper Penitencia Creek Bypass Channel Santa Clara Valley Water District San Jose--Santa Clara Upper Penitencia Creek is a tributary that empties into Coyote Creek downstream of U.S. 101. It is a well defined, entrenched channel where it leaves the mountainous area near Dorel Drive. Between Dorel Drive and Piedmont Road, its capacity is approximately 1,000 cubic feet per second (cfs). As the creek continues across the urbanized valley floor towards Coyote Creek, its capacity decreases to approximately 600 cfs near King Road and on downstream. For this reason, major flood events have the potential to result in significant damage to residences and businesses in this portion of the Coyote Watershed. The Reach 1 portion of the project includes the construction of a new concrete bypass channel to accept higher flows from the creek during flood events. The bypass channel would be constructed approximately 200 feet south of the existing bridge crossing on King Road, and empty into Coyote Creek approximately 1,200 feet up stream/south of the existing Upper Penitencia Creek confluence with Coyote Creek. The project location is illustrated in the attached figure. The total bypass channel, and an outlet structure at the Coyote Creek/Upper Penitencia Creek confluence. With implementation of the bypass channel project, the existing creek along Reach 1 would remain the same as it is today.	<b>NOP</b>	11/27/2001
2001104013	Berryessa Creek Project: Calaveras Boulevard to Old Piedmont Road, San Jose and Milpitas, California U.S. Army Corps of Engineers --Santa Clara The action being taken is a General Re-evaluation Report to study alternatives to increase the level of flood protection, reduce sediment load and maintenance requirements, enhance the ecosystem, and provide additional recreation opportunities in the cities of San Jose and Milpitas.	<b>NOP</b>	11/27/2001

<b><u>Documents Received on Monday, October 29, 2001</u></b>			
2001101154	Lopez Recreation Area Water Well Project; ED00-473 (C000035E/P240939) San Luis Obispo County Arroyo Grande--San Luis Obispo The County of San Luis Obispo is proposing to construct a new water well to replace the existing wells serving the Lopez Lake Recreation Area. The project will include the installation of approximately 1,000 feet of new water main to connect the new well to the water distribution system.	<b>Neg</b>	12/03/2001
2001101156	Plot Plan Review No. 00-094 & Variance 99-036 Malibu, City of Malibu--Los Angeles A request to construct a 20-foot wide, 1,600 foot long private access road within the fixed boundaries of a private easement, located northeast of Sweetwater Mesa Road.	<b>Neg</b>	11/29/2001
2001101157	Regulations - Adoption and Implementation California Integrated Waste Management Board -- Adoption and implementation of regulations for the co-disposal of nonhazardous, nonputrescible, industrial solid waste with hazardous waste at Class I Hazardous Waste Disposal Facilities.	<b>Neg</b>	11/29/2001
2001102122	General Plan Housing Element Update 2001 Santa Clara, City of Santa Clara--Santa Clara Identify potential new housing sites, primarily focusing on infill on small vacant sites or redevelopment of existing sites.	<b>Neg</b>	11/27/2001
2001102124	West Campus Water Tower Replacement Project University of California Davis--Yolo, Solano UC Davis proposes to remove existing Domestic Water Tower Number 2 located west of Highway 113 and to construct a new ground-level water tank to expand the current domestic water supply and fire flow capacity on campus lands west of Highway 113. The existing 100,000 gallon water tower is located south of Brooks Road on the west campus at UC Davis. The water tower is approximately 150 feet tall with an exterior lead-based paint coating system that is badly corroding. Replacing the water tower with a new 300,000-gallon ground tank would be more cost-effective than recoating the existing water tower and also, would improve the domestic water system on the west campus. The demolition would be performed by cutting two of the four legs and pulling the tower over in a southerly direction to an agricultural field. A lead consultant would collect soil samples before and after demolition of the water tower and would conduct any required lead remediation of soils affected by the tower demolition.	<b>Neg</b>	11/28/2001
2001102126	37 and 39 Crescent Avenue Sausalito, City of Sausalito--Marin Construction of a duplex structure on a currently vacant lot with slopes up to 100%. The project includes approximately 1,480 cubic yards of grading that will result in an excavation of up to 30 feet. The cut will be secured with soil nailing.	<b>Neg</b>	11/27/2001

2001102127	Dow Chemical Company, Boiler and Industrial Facility Permit Toxic Substances Control, Department of, Northern California Permitting Branch Pittsburg, Antioch--Contra Costa The project is an issuance of a permit by DTSC for continued operation of hazardous waste treatment units and storage units. The treatment units are two boiler and industrial furnaces (BIF or halogen acid furnaces (HAF)) and associated hydrochloric acid recovery and air pollution control systems. These two HAF units and associated units have BIF interim status authorization under DTSC. These HAF units also currently operate under their respective Bay Area Air Quality Management District (BAAQMD) permits that contain specific conditions and limitations. The storage units are three tanks that store waste liquids that are processed in the HAF units.	<b>Neg</b>	12/17/2001

2001102129	Beaver Lumber Company Remedial Action Plan Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Arcata--Humboldt Several different companies operated various types of wood processing at the site from the early 1920s to the present. Wood treatment chemicals that contained pentachlorophenol (PCP) and other contaminants were used between 1965 and 1983. The site is currently used for remanufacturing of wood products and a composting cottage industry. Site investigation revealed onsite soil, surface water, and groundwater contamination with PCP, tetrachlorophenol, and other breakdown products. The proposed project is a remedial action consisting of excavation and transportation of PCP contaminated soils to a permitted facility followed by the injection of hydrogen peroxide to facilitate the bioremediation of soils.	<b>Neg</b>	11/29/2001

2001102133	Larry Hahn Rezoning/General Plan Amendment/Minor Land Division Placer County Planning Department --Placer Proposal to rezone 55.8 acre parcel from RF, 40 acre minimum to RF, 10 acre minimum, and subdivide the property into 3 ten-acre parcels, with a remainder of 25.8 acres.	<b>Neg</b>	11/29/2001
2001102134	Ordinance and Explosive Removal Action Workplan, Dredge Pond Berm and Outfall Areas, Former Mare Island Naval Shipyard Toxic Substances Control, Department of Vallejo--Solano The project consists of excavation and removal of unexploded ordinance, explosive wastes, and radioluminescent devices and subsequent site restoration at the excavation locations at the dredge pond areas at the former Mare Island Naval Shipyard.	<b>Neg</b>	11/28/2001
2001102141	City of American Canyon Channel Maintenance Project American Canyon, City of American Canyon--Napa The proposed project consists of silt and debris removal and vegetation cutting within existing flood control channels within the City of American Canyon.	<b>Neg</b>	11/28/2001
2001111019	Grading Permit 00-215 Berm Construction and Farmland Stabilization San Benito County --San Benito The purpose of this project is to reclaim and protect agricultural lands lost in the 1998 flood events. When completed, over 24 acres of land would be reclaimed for agricultural purposes and 5 acres would be restored as native riparian community. The project involves the construction of a third of a mile long, 22-foot wide, earthen berm that would vary in height from 12 to 18 feet above the present grade. The berm would create a defined riparian buffer of 150 to 250 feet from the current channel for the Tres Pinos Creek. Berm construction will involve digging a trench 8 feet deep and 10 feet wide at the base. The trench would be filled with clean riprap with a minimum of 2-foot soil cover and there would be approximately 4,000 cubic yards of fill involved in the construction the berm. Following berm construction, plantings of willows and other native vegetation would occur on the west face and approximately 130,000 cubic yards of agricultural fill would be placed on the east side of the berm over a period of 10 years. The applicant has submitted a hydrologist report as part of his application. The recommendations of this report have been incorporated into the project. Berm construction is proposed to be phase over 2 to 4 years. Some of the berm construction has been completed in the winter of 2001 under an emergency application to the Department of Fish and Game.	<b>Neg</b>	12/05/2001
1992031045	City of Santa Maria Landfill Permit Update Santa Maria, City of Santa Maria--Santa Barbara Increase the disposal footprint from 186 to 245 acres, increase in elevation from 340 to 362.5 feet MSL, defined maximum depth of 265 feet MSL for future area, defined peak of 525 vehicles per day, change estimated closure date from 2013 to 2017, increase total capacity from 10,888,178 cubic yards to 13,998,400 cubic yards, use hydrocarbon impacted soils as a foundation layer (current active area)	<b>NOD</b>

2001108479	Maintain Scrub Plant Community - Alien Plant Control Parks and Recreation, Department of --San Luis Obispo This project will eradicate exotic plants currently infringing on the coastal scrub plant community along Moonstone Bluff at San Simeon State Park. Herbicide (Round-up Pro) will be selectively applied to kill non-native vegetation (primarily ice plant); native plant species will be allowed to revegetate naturally. Soil will not be disturbed and treated plants will be left in place to prevent erosion.	<b>NOE</b>	
2001108480	Replace Wooden Floor - Recreation Hall Parks and Recreation, Department of --Mendocino Repair and refinish wooden floor of the historic Recreation Hall at Russian Gulch State Park. Repair and reinforce existing truss system as necessary to adequately support flooring. Refinish floor with historically appropriate finish, compatible with wood and usage. All work will be done in a manner consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties. Measured drawings will be prepared for areas of floor replacement and photographs of work will be taken before, during, and after construction. Bats reside in the general area of the project site; however, direct impact to bats is not anticipated. If bat habitation in structure is found to be a nursery colony or work extends for more than one month, work will then be restricted to the period from September 1 to April 15 to avoid impact.	<b>NOE</b>	
2001108481	Replace Campground Barriers - Districtwide Parks and Recreation, Department of --Mendocino Repair/replace approximately 1,200 8" X 8" X 48" campground barriers (stobbers) at Hendy Woods, Navarro River Redwoods, Van Damme, Russian Gulch, and McKerricher State Parks, and Manchester and West Port Union Landing State Beaches. Existing stobbers will either be repaired or replaced with 8" X 8" X 48" redwood posts. Replacement stobbers will be placed in original locations, using existing disturbed soil, and no additional stobbers will be installed. Disturbance to adjacent vegetation will be limited and avoided wherever possible.	<b>NOE</b>	
2001108482	Re-roof Residence #8 and Garage Parks and Recreation, Department of --Mendocino Replace roof on existing Residence #8 and garage at Van Damme State Park. Existing fiberglass three-tab shingles will be removed, sheathing repaired, flashing replaced, and new fiberglass shingles installed. Bats reside in the general area of the project site; however, direct impact to bats is not anticipated. Work will be confined to period from September 1st to April 15th and care will be taken when removing flashing to avoid any possibility of impact.	<b>NOE</b>	
2001108483	Replace Upper Meadow Combo Building Parks and Recreation, Department of --Mendocino Replace existing combination restroom/shower building at Van Damme State Park to provide ADA accessibility and reliable visitor services. Demolish existing building and construct new restroom/shower combination building on same site.	<b>NOE</b>	

## CEQA Daily Log

<b><u>Documents Received on Monday, October 29, 2001</u></b>			
	New structure will overlap the existing footprint and utilize existing utility services, but will be slightly larger than current building to comply with ADA and building code requirements. Work using power tools outside or heavy machinery will only occur between September 15 and February 1 to avoid impact to northern spotted owl and/or marbled murrelet.		
2001108484	Nelson Bar Signs and Gate Parks and Recreation, Department of --Butte Install signs and a gate at the Nelson Bar area to improve public safety and promote and control public parking in the parking lot.	<b>NOE</b>	
2001108485	Installation of ADA Drinking Fountain Parks and Recreation, Department of Eureka--Humboldt Installation on the outside of the restroom at Fort Humboldt of an ADA compliant drinking fountain.	<b>NOE</b>	
2001108486	Sign Installation Parks and Recreation, Department of Sacramento--Sacramento Install a new two-sided sign entry sign at Front and J Streets.	<b>NOE</b>	
2001108487	Replace Roof - Casa Grande Parks and Recreation, Department of --San Luis Obispo Replace the existing roof at Casa Grande - Hearst San Simeon State Historic Monument to support the continued maintenance and preservation of the property. Roof tiles and membrane will be removed; tiles will be preserved whenever possible and will not be washed. Lichen on tiles will not be removed. Install seismically improved attachment system and new membrane. Reinstall original tile, replacing damaged tile in kind, matching original design, color and texture. No mortar or exclusionary devices will be placed at the ends of the tiles. Remove and replace/restore copper leader boxes and pipes. Reflash roofs with lead flashing at chimney bases; waterproof membrane (textured and colored to match chimney) will be used at chimney tops and sides, unless lead flashing is necessary to arrest water penetration. Membrane roofing on South Wing and chimney at east end of Gothic Study will be grey or another dark neutral color. Replace existing catwalks with stainless steel catwalks and install additional catwalks to allow access to all clay tile roof areas. Install stainless steel ladders at east and west South Wing towers. Work will only be performed between October and March. Additionally only one section of the roof will be under construction at a time; a two-week notice will be given to the Department of Parks and Recreation district resource ecologist before work begins to allow time for bats to be excluded from work area. All work will be done in accordance with the Secretary of the Interior's Standards for the Treatment of Historic Properties.	<b>NOE</b>

2001108587	Streambed Alteration Agreement Concerning Unnamed Tributary to Cottonwood Creek Fish & Game #5 --San Diego The Operator proposes to alter the streambed to regrade approximately 12,050 linear feet of a dirt road that provides access to power poles in a portion of Rattlesnake Canyon. The project will require a D5 Caterpillar bulldozer for the mass grading and a John Deere motor grader for the finish grading. A brushing crew will trim mostly upland vegetation along the side of the road prior to grading. Grading is expected to impact a maximum of one foot on either side of the road for a total impact of 24,100 square feet. The project site is located 2.5 miles east-northeast of the community of Dulzura, in eastern San Diego County.	<b>NOE</b>	
2001108588	Major Waste Tire Facility Permit Revision for Lakin Tire West, Inc., Los Angeles County, Facility No. 19-TI-1077 California Integrated Waste Management Board --Los Angeles This permit revision reduced the maximum tire storage limit at the facility from 200,000 to 130,000 waste tires.	<b>NOE</b>

2001102145	<p>Research and Business Park General Plan Amendment and Rezone Butte County Chico, Oroville--Butte</p> <p>The project involves changing the Land Use designation and rezoning approximately 6,800 acres to Research and Business Park. The acreage involved consists of six discrete sites in various locations in the unincorporated area of the County as follows:</p> <p>Site 1: (1,080 acres) Development potential under the existing General Plan could be up to one dwelling unit per acre, for a total of approximately 1,080 dwellings. However, approximately 491 acres of the 1,080 acres may be developable.</p> <p>Site 2: (1,233 acres) Development potential under the existing General Plan would be either 30 single family dwellings on parcels of 40+ acres or 60 single family dwellings if a clustered Planned Unit Development option is used and 80% of the site remains in open space.</p> <p>Site 3: (1,716 acres) Development potential under the existing General Plan would be either 43 single family dwellings on parcels of 40+ acres or 86 single family dwellings if a clustered Planned Unit Development option is used and 80% of the site remains in open space.</p> <p>Site 4: (915 acres) Development potential under the existing General Plan could be up to one dwelling unit per acre for the 430 acres designated Agricultural Residential. This would require a Rezone.</p> <p>Site 5: (270 acres) Development potential under the existing General Plan would be either 6 single family dwellings on parcels of 40+ acres or 13 single family dwellings if a clustered Planned Unit Development option is used and 80% of the site remains in open space.</p> <p>Site 6: (1,689 acres) Development potential under the existing General Plan would be either 42 single family dwellings on parcels of 40+ acres or 84 single family dwellings if a clustered Planned Unit Development option is used and 80% of the site remains in open space.</p>	<b>NOP</b>	11/28/2001

<b><u>Documents Received on Tuesday, October 30, 2001</u></b>			
2001101161	Rancho Bella Vista Middle School No. 6 Temecula Valley Unified School Disitric Temecula--Riverside Construction a new middle school facility comprising of 8 academic buildings and other school supporting amenities on a 20.6-acre vacant site to serve 1,500 grades 6-8 students.	<b>Neg</b>	11/29/2001
2001102135	Snows Road Pit Reclamation Plan, California Mine I.D. #91-09-0012 Mining and Geology Board, Department of Conservation --El Dorado The project is a reclamation plan pursuant to California's Surface Mining and Reclamation Act of 1975 for the existing Snows Road Pit.	<b>Neg</b>	11/20/2001
2001102137	Vista Del Lagos (EIAQ-3557) Placer County Planning Department Loomis--Placer Proposed addition of two residential lots to the approved 12-lot tentative map.	<b>Neg</b>	11/30/2001
2001102138	PG&E Shasta County Land Transfers (Application No. 00-05-029 and 00-05-030) Public Utilities Commission --Shasta PG&E's divestiture applications (Application No. 00-05-029 and 00-05-030) originally filed in May 2000, are in response to Assembly Bill 1890 (AB 1890), which requires the CPUC to market value all non-nuclear generating facilities by December 31, 2001. AB1890 specifies that the market value of generation assets may be determined through a sale, appraisal or other divestiture. The Proposed Project responds to the CPUC's request for voluntary divestiture and seeks authority to transfer and donate certain lands in the Federal Regulatory Commission's (FERC's) Pit 1,2,3, and 4 Hydroelectric Projects in Shasta County.	<b>Neg</b>	11/29/2001
2001102139	Pacific Gas and Electric Company Divestiture of Richmond-to-Pittsburg Fuel Oil Pipeline and Hercules Pump Station/San Pablo Bay Pipeline Company Public Utilities Commission Richmond, Pittsburg--Contra Costa The pipeline enters land designated by the General Plan as Light Industry. Moving further to the north, for a short period the pipeline borders lands designated Low Density Residential near the North Richmond area, or lands to be used for single-family residences. However, the pipeline and the railroad right-of-way remain primarily in lands designated for either Light Industry use or Heavy Industry use until crossing Rheem Creek. At Rheem creek, the land use designations become more diverse and as the pipeline and the railroad right-of-way move northward and then northeastward, adjacent land uses include: Industrial/Office Flex, Light Industry, Low Density.	<b>Neg</b>	11/29/2001
2001102140	Whitebridge Subdivision (EIAQ-3405) Placer County Planning Department Loomis--Placer Proposed subdivision of two parcels totaling 180+/- into 67 lots, ranging in size from 2.3-4.6 acres.	<b>Neg</b>	11/28/2001

<b><u>Documents Received on Tuesday, October 30, 2001</u></b>			
2001091043	<p>Crystal Cove Zone 2 to 4 Booster Pump Station Irvine Ranch Water District --Orange</p> <p>IRWD supplies domestic water to this hillside community. A total of three (3) domestic water pressure zones (coastal Zones 2,3, and 4) are serviced by a gravity system from Coastal Zone 4 and 6 reservoirs. Coastal Zone 4 Reservoir (876 HGL) feeds Crystal Cove's Coastal Zone 2 (471 HGL). Coastal Zone 6 Reservoir (1178 HGL) feeds Crystal Cove's Coastal Zone 3 (725 HGL) and Coastal Zone 4 (835 HGL). The Crystal Cove development will require a new Coastal Zone 2 to Coastal Zone 4 Emergency Booster Pump Station (BPS). This emergency BPS will provide a back-up water supply for Crystal Cove's upper 3 and 4 will be from the Coastal Zone 2 pressure zone. The emergency BPS will feed a 10-inch pipeline in Whaler's Bluff and Reef Point Drive that will convey water to the Crystal Cove's Zone 4. The water will then be pressure reduced through regulating stations to coastal pressure Zone 3.</p>	<b>NOD</b>	
2001099004	<p>Silverado Creek Subdivision Napa, City of Napa--Napa</p> <p>The Old Vine Way Subdivision Tentative Map and environmental approval was given by the City of Napa in May of 2000 for the development of 38 single family detached homes. The proposed outfall structure for the Old Vine Way Subdivision will be enlargement of the existing outfall structure constructed for the Silverado Creek Subdivision. The new outfall structure will consist of a 30" RCP and has been sized to accommodate the new flow coming from the Old Vine Way subdivision as well as the existing flow from the detention ponds. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 of the Fish and Game Code to the project operator, Dean K. Mills/O'Brien Group.</p>	<b>NOD</b>	
2001109050	<p>Watercourse Crossings for Timber Harvest Forestry and Fire Protection, Department of --Amador</p> <p>The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number R2-2001-393 pursuant to Section 1603 of the Fish and Game Code to the project applicant, Gary Gladen. Construct one temporary crossing using a 36" culvert and one temporary skid crossing.</p>	<b>NOD</b>	
2001108589	<p>Crevasse Illegal Disposal Site Remediation California Integrated Waste Management Board --Los Angeles</p> <p>An estimated 600 cubic yards of solid waste has primarily been dumped and burned in an abandoned quartz quarry. Approximately 50 percent of the waste has been dumped on property owned by the Bureau of Land Management (BLM) with the remaining solid waste scattered over several adjacent parcels. Waste types include household trash/garbage, construction/demolition (C/D) debris, furniture, appliances, dismantled vehicles, landscape cuttings, and waste tires. Remediation of the site includes transporting un-recyclable solid waste (e.g., household garbage, wood debris, etc.) to appropriate landfills; separating and hauling metal debris to appropriate recycling facilities; and packaging and proper disposal of all household hazardous waste and asbestos-containing waste. At</p>	<b>NOE</b>	

## CEQA Daily Log

Documents Received during the Period: 10/16/2001 - 10/31/2001

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, October 30, 2001</u></b>			
	project conclusion, earthen berms will be placed at various key locations to discourage future illegal dumping. It is anticipated that all wastes will be removed and no further action will be required other than monitoring by the County Local Enforcement Agency (LEA) to ensure no additional illegal dumping occurs.		
2001108590	Fagundes Dairy Illegal Disposal Site Remediation California Integrated Waste Management Board Fresno--Fresno Approximately 2,400 cubic yards of waste have been dumped and partially covered in lagoons on the eastern portion of the property. The illegally dumped waste is primarily comprised of household trash, scrap wood, landscape cuttings, construction/demolition debris, and metal items, plastic, and tires.	NOE	
2001108591	Table Bluff Reservation Illegal Disposal Sites California Integrated Waste Management Board Eureka--Humboldt In April 2001 the Table Bluff Reservation requested a multi-agency inspection to determine how to stop and clean up the illegal dumping on the reservation. Staff from the California Integrated Waste Management Board (Board), along with representatives from the Humboldt County LEA and Indian Health Services, assessed the sites and identified approximately 1,400 cubic yards of household waste, 800 cubic yards of metal debris and white goods, 400 tires, 15 autos, household hazardous waste, and other construction debris along Table Bluff Road and on seven other parcels. The Board's remediation contractor will remove and haul the solid waste to an appropriate facility. Metal debris, including appliances, vehicles, and waste tires will be segregated from solid waste and hauled to appropriate recycling facilities. The household hazardous waste will be set aside for proper disposal and/or recycling. Once the debris is removed, signs and access restrictions will be placed to prevent further illegal dumping. After completing the project, the Tribe will provide ongoing enforcement to prevent recurring illegal disposal at the sites.	NOE	
2001108592	SAA 5-2001-0255 Regarding the Removal of Invasive Species Channel Maintenance Plan for Rose Hills Company Fish & Game #5 Whittier--Los Angeles The Operator proposes to alter the streambed by manually removing invasive species consisting of, but not limited to, Russian thistle ( <i>Salsola tragus</i> ), Mexican fan palm ( <i>Washingtonia robusta</i> ), giant creek nettle ( <i>Urtica dioica</i> ), cocklebur ( <i>Xanthium strumarium</i> ), castor bean ( <i>Ricinus communis</i> ), and non-native grape from within an approximately 0.51-acre portion of Sycamore (east) and North (east and west) channels, within the Rose Hills Company property located off of the 605 freeway in Whittier, California. The purpose of this project is to restore channel design and storm flow capacity through an annual Channel Maintenance Plan. Maintenance activities are limited to above ground clearing of invasive vegetation and shall be conducted by hand crews, followed by a foliar spray with herbicide Rodeo.	NOE

<b><u>Documents Received on Tuesday, October 30, 2001</u></b>			
2001108593	Adaptive Physical Therapy Yuba Community College District Marysville--Yuba An obsolete, inadequate and temporary building in poor condition will be replaced. Approximately 1,656 assignable square feet (of a total campus of 264,664 ASF) will be replaced by a structure of 2,933 assignable square feet to serve students within other campus disciplines to promote adaptive physical development.	<b>NOE</b>	
2001108594	Haylon Way Parcel Split Fish & Game #3 --Contra Costa As part of the development of a single parcel into two parcels, the operator proposes to fill the eastern portion of the property, adjacent to the creek area, at 393 Halon Way, in Bay Point, Contra Costa County. The fill will be graded, creating a 2:1 slope down to the top of the creek bank. An earthen drainage swale will be created along the top of the slope and will direct runoff water to another earthen swale lined with channel liner. The swales will be directed down the slope and onto the west bank of Lawlor Creek. Arundo (bamboo) in and around the creeks shall be removed and eradicated. Issuance of Streambed Alteration Agreement Number R3-2001-0683 pursuant to Fish and Game Code Section 1603.	<b>NOE</b>	
2001108595	Huer Huero Creek Sand Extraction Fish & Game #3 Paso Robles--San Luis Obispo Extraction of up to 500 cubic yards of sand by skimming sand to a depth of 6 to 12 inches from the stream bed. The aggregate removed will be 30 yards wide and 100 yards long. No temporary or permanent crossings of the creek will be required. Issuance of a Streambed Alteration Agreement Number R3-2001-0051 pursuant to Fish and Game Code Section 1603.	<b>NOE</b>	
2001108596	Lime Saddle Launching Ramp Extension Fish & Game #2 Oroville--Butte Addition of a maximum of 183' of 30' wide concrete boat launch ramp. Includes excavation of existing earth, concrete paving, and up to 55 cubic yards of rip-rap protection.	<b>NOE</b>	
2001108597	Skunk Hollow Access Improvements Fish & Game #2 --El Dorado Replacement of existing boat ramp, construction of pedestrian foot ramp, expansion of parking lot.	<b>NOE</b>	
2001108598	Spillway Boat Launching Ramp Extension Fish & Game #2 Oroville--Butte Addition of a maximum of 300' of 60' wide concrete boat launch ramp. Includes installation of clean fill, concrete paving and up to 455 CY of concrete paving.	<b>NOE</b>

2001108599	Jefferson Boulevard Road Improvement Project Fish & Game #2 West Sacramento--Yolo Replacement of 48" CMP culvert and reconstruction of roadside ditches.	<b>NOE</b>	
2001108600	Calaveras Dam, No. 10 Water Resources, Department of, Division of Dams Pleasanton--Alameda Install nine new piezometers and one inclinometer within the dam embankment.	<b>NOE</b>	
2001108613	Gabilan/Natividad Creek Bicycle Path Salinas, City of Salinas--Monterey The City of Salinas Public Works Department proposes to construct two segments of a 2.3 kilometer, 3.7 meter wide (1.4 mile, 12 foot wide), Class I bicycle/pedestrian path along Gabilan Creek and Natividad Creek to connect Constitution Boulevard with an existing City bicycle path along Natividad Creek. The first segment of the bicycle path is from south of Constitution Boulevard to the existing bridge over Gabilan Creek and the second segment is from East Laurel Drive to Natividad Creek. The project includes construction of a prefab bridge and abutments across Natividad Creek. It anticipated that the project would be constructed within existing right-of-way and would not encroach into jurisdictional areas along Gabilan Creek and Natividad Creek.	<b>NOE</b>	
2001108615	Court of Appeal, Sixth Appellate District - Expansion Judicial Council of California San Jose--Santa Clara The existing courthouse is at maximum capacity. Expanding into adjacent contiguous space on the 10th floor provides offices for the new justice and staff created by SB 1857. This project provides approximately 2,046 useable square feet of leased office space.	<b>NOE</b>	
2001108617	Desert Valley Company, Imperial County (SWFP No. 13-AA-0022) California Integrated Waste Management Board Brawley--Imperial Revised Solid Waste Facility Permit to add an additional type of designated waste accepted by adding plastic sheeting that is incidental to the operation of the Monofill.	<b>NOE</b>
